Education

Dr. A.P.J. Abdul Kalam Technical University, Lucknow Sep 2024 – Present
Bachelor of Technology in Computer Science and Engineering (CSE) *CGPA: 7.92*

Projects

InterviewAI-prep — *React, Node.js, Express.js, MongoDB, Google Gemini, JWT* 2026

- Helps job seekers prepare for interviews by identifying skill gaps, generating personalized questions, and providing AI-powered feedback on their responses.
- Developed an AI-powered interview preparation platform that generates personalized interview questions and evaluates candidate responses using Google Gemini.
- Built a secure MERN-style full-stack architecture with React, Express.js, MongoDB, JWT authentication, bcrypt password hashing, and protected API routes.
- Implemented resume/PDF upload and processing, structured AI feedback, performance analysis, and persistent interview reports using Mongoose.
- Integrated Zod-based validation and dedicated backend services for AI processing, with a responsive React frontend and interactive 3D components using Three.js.

Go-Cart — *Next.js, React, TypeScript, Tailwind CSS* 2026

- Addresses the challenge of managing multi-vendor shopping by providing customers with a unified storefront and vendors with centralized product and order management.
- Developed a multi-vendor e-commerce platform with vendor dashboards, product management, and customer storefront.
- Built responsive UI components using Next.js, React, TypeScript, and Tailwind CSS for an optimized user experience.
- Implemented authentication, shopping cart, checkout workflow, inventory management, and order tracking features.

E-Learning Platform Using MERN — *MongoDB, Express.js, React, Node.js, Redux, Chakra UI, JWT* 2026

- Simplifies online learning by providing students with centralized course access, progress tracking, and discussions while enabling instructors to manage course content efficiently.
- Developed a MERN-based E-Learning Platform with JWT authentication and role-based access control for students and instructors.
- Implemented course management, student enrollment, progress tracking, multimedia content, and discussion forums.
- Built a responsive interface using React, Redux, and Chakra UI while integrating RESTful APIs for scalable performance.

Technical Skills

- **Programming:** C, JAVA, JavaScript, TypeScript
- **Frontend:** React.js, Next.js, HTML, CSS, Tailwind CSS, Chakra UI
- **Backend:** Node.js, Express.js, REST APIs, JWT Authentication
- **Database:** MongoDB, PostgreSQL
- **AI & APIs:** Google Gemini API
- **Tools:** Git, GitHub, VS Code, Postman

Achievements

- Solved 150+ DSA problems in JAVA, demonstrating strong algorithmic problem-solving skills on **LeetCode**.
- Participated in multiple hackathons, including the Smart India Hackathon (SIH), collaborating with teams to design and prototype innovative software solutions.
